

Information for Arconic Customers of non-European Arconic legal entities

Dear Valued Arconic Customer of an Arconic non-European legal entity:

We are committed to product safety and to providing the information our customers need to comply with their REACH⁽¹⁾ obligations. Arconic has established a dedicated REACH Team that anticipates and manages potential impacts of REACH to our product portfolio, both inside and outside of the European Economic Area.

Registration:

Please note that many of our products (e.g., fasteners, turbine vanes, building panels, coils, plate, sheet and foil, rod) are considered as articles under REACH. Therefore, when imported into the European Economic Area, substances in them are not subject to registration.

Safety Data Sheets (SDSs)

Please note that most of Arconic products do not require an SDS as per Article 31 of REACH. Arconic is providing these SDSs voluntarily.

Candidate list

Arconic is monitoring the substances on the candidate list, which is being modified twice a year, and their presence in our products. Information on presence of a substance of the candidate list > 0.1 % of weight in our products is available through your standard Arconic commercial contact or, for AFSR, in our webpage www.arconic.com.

Authorization:

Our non-European operations are not subject to the REACH authorization requirement.

If you have any question regarding Arconic products and REACH, you can address your Arconic Commercial contact or the Arconic REACH Team at: ReachTeam2@arconic.com.

Innovation, engineered.

(1) European Regulation N° 1907/2006 of the European Parliament and of the Council of 18th December 2006 concerning Registration, Evaluation, Authorization and Restriction of Chemicals, also known as REACH Regulation
